

ABOUT YOURS HUMANLY

Yours Humanly is a global organization dedicated to helping children in need receive the education they deserve.

Driven by the belief that education is a basic human right, we fund global efforts to provide children in need access to quality education and equitable resources.

While the programs and resources we provide vary among the countries and cultures in which we work, our focus is always on transforming the lives of children in need through education. By doing so, we are lifting children out of poverty and other challenging situations and empowering them to achieve better, brighter futures.

OUR MISSION

We transform the lives of children in need around the world by providing access to quality education and equitable resources.

OUR VISION

A world where all children have an equal opportunity to receive a quality education.

OUR CORE VALUE

Quality education is a basic human right, and every child everywhere should be afforded that right in a safe and nurturing environment.

OUR CHAPTERS

We are building a global presence to effect global change by establishing Yours Humanly chapters in every country in which we work. By positioning teams at a grassroots level to work within the culture and communities of those countries, we are directly aiding the children we serve. We continue to expand our global reach on an ongoing basis to advance our mission.

WHAT WE DO

COLORING FUTURES

K-12 Scholarships

We enroll underprivileged children in their local schools and fund their education through 12th grade graduation, helping them literally off the streets and into the classroom.

STEM & Arts Programs

We introduce and build upon STEM and Arts programs to encourage student engagement, innovation, and critical thinking.

Literacy Programs

We host literacy programs to promote reading, parent engagement, and community involvement in local schools; and we donate reading books and bilingual books to grow school and classroom libraries.

After School & Enrichment Programs

We provide assistance with after school programs and extracurricular activities that support classroom curricula and enrich the educational experience.

BRIDGING GAPS

Computers, Internet & Technology

To help close the digital divide, we purchase computers and ancillary technology for students; coordinate the development of computer labs for schools and communities; and provide computer science instructors, where needed, to advance technological literacy.

Facility Needs

We provide basic facility needs that are deemed necessary to establish and maintain safe and effective learning environments.

Disaster Relief

Wildfires, floods, hurricanes, earthquakes, and health crises are disasters that affect every child, family, and community in their paths. We respond quickly with rehabilitation assistance and life-saving aid that communities and schools need to recover and rebuild after a natural disaster.

FREQUENTLY ASKED QUESTIONS

In which countries do you operate?

Currently our efforts are focused in Cambodia, Haiti, India, Nepal, the Philippines, and the United States. We are actively working to establish our presence and serve children in other countries throughout the world.
